### Description ([revised](#))

When my Dad brought this home from the BBC dump in the late 1970's I must admit that I harboured some doubts that it was the actual Green Death Fly. But when, several years later, I saw a repeat of the classic Dr. Who episode all my doubts vanished.

The Fly has been in my loft for the last 12 years and sadly is missing a wing and part of her eye. There was a small plastic tube from which the creature skirted the Green Death at the Doctor.

I took these photos in my loft a while ago. Also here are some shots from a VHS of the Fly in action!
